**Charlotte, NC** – The NJCAA has announced a partnership agreement with vFormity as the preferred equipment tracking solution for the association. An intelligently built and rigorously tested sports equipment tracking solution, vFormity serves as a streamlined approach to athletic equipment and inventory monitoring.

“As the NJCAA continuously makes strides of providing membership with modern solutions for day-to-day needs, we are excited to partner with vFormity and its advanced equipment tracking software. vFormity’s advanced innovations will alleviate the hassle of manual equipment tracking and allow our coaches to focus on the student-athlete and provide the best experience possible for them.”

vFormity’s state-of-the-art software eliminates the chaos of fitting day or end-of-season returns—a team of 100 completes the process in as little as 20 minutes. From the touch of your mobile device, users have the ability to update inventory in real-time while providing e-mail and text alerts for both staff and student-athletes.

“vFormity is honored to partner with the NJCAA and be named its preferred Equipment Tracking Solution for member colleges,” commented Carmen P. Parisi, President, vFormity. “In support of NJCAA’s mission, synergies amongst our organizations ensures member colleges remain up-to-date and in compliance with current and upcoming equipment safety standards in a way that is convenient, auditable, and cost-effective from year-to-year.”

vFormity’s software provides a vast array of features that extend further than day-to-day tracking of equipment, including its Point of Purchase component that allows a team to sell equipment at the end of the season, safety monitoring, and customizable reporting logs.

Parisi expanded on the partnership with the NJCAA. “We look forward to supporting member colleges and empowering them with a truly mobile solution to efficiently record inventory, assign equipment to players and staff, record key safety information, such as recertification and retirement dates, and streamline the chaos of Fitting Day and end-of-season returns. As former players and coaches, we understand the many roles coaches, staff, Athletic Directors, and volunteers play in the evolution of student-athletes—our solution was created to further serve these role-players and eliminate outdated, chaotic, and error-prone ways of the past so they can focus on what they do best.”
